IN THIS ISSUE

• Availability of less invasive prenatal, perinatal and paediatric autopsy will improve uptake rates: a mixed-methods study with bereaved parents
• Commentary: A commentary on population genetic testing for primary prevention: changing landscape and the need to change paradigm
• Predicting common maternal postpartum complications: leveraging health administrative data and machine learning
• Women and academic careers in obstetrics and gynaecology: aspirations and obstacles among postgraduate trainees – a mixed-methods study
• Attitude towards and factors affecting uptake of population-based BRCA testing in the Ashkenazi Jewish population: a cohort study
BJOG is an editorially independent publication owned by the Royal College of Obstetricians and Gynaecologists (RCOG). The journal publishes original, peer-reviewed work in all areas of obstetrics and gynaecology, including contraception, urogynaecology, fertility, oncology and clinical practice. Its aim is to publish the highest quality of medical research in women’s health, worldwide. The journal is covered by Current Contents, ISI/Biomed, Science Citation Index, Index Medicus, CABS, Chemical Abstracts and Current Clinical Cancer.

Submissions for Publication
Submissions for Publication must be made online through ScholarOne by logging in on the homepage. Full instructions for submitting a manuscript can be found on the website: www.bjog.org. Please note that BJOG does not accept paper submissions.

Editorial note
Editors who submit manuscripts, either as corresponding or contributing author, take no part in any stage of the editorial processing of their manuscript.

Other information about BJOG can be found by visiting www.bjog.org. General enquiries may be directed to the Editorial Office at 27 Sussex Place, Regent’s Park, London NW1 4RG (Telephone: +44 (0)20 7772 6236; Email: bjoq@editorialoffice.co.uk.)

Wiley’s Corporate Citizenship initiative seeks to address the environmental, social, economic, and ethical challenges faced in our business and which are important to our diverse stakeholder groups. Since launching the initiative, we have focused on sharing our content with those in need, enhancing community philanthropy, reducing our carbon impact, creating global guidelines and best practices for paper use, establishing a vendor code of ethics, and engaging our colleagues and other stakeholders in our efforts. Follow our progress at www.wiley.com/go/citizenship

Wiley is a founding member of the UN-backed HINARI, AGORA, and OARE initiatives. They are now collectively known as Research4Life, making online scientific content available free or at nominal cost to researchers in developing countries. Please visit Wiley’s Content Access – Corporate Citizenship site: http://www.wiley.com/WileyCDA/Section/id-390082.html
Contents

**Editorial**

679  Improving the uptake of post-mortem after pregnancy loss  
M Marsh (UK)

681  **Insights from outside BJOG**  
A Kent, S Kirtley (South Africa, UK)

**Commentary**

686  A commentary on population genetic testing for primary prevention: changing landscape and the need to change paradigm  
R Manchanda, F Gaba (UK)

**Epidemiology**

690  Trends in caesarean section rates between 2007 and 2013 in obstetric risk groups inspired by the Robson classification: results from population-based surveys in a low-resource setting  
C Hanson, AP Betrán, C Opondo, E Mkumbo, F Manzi, G Mbaruku, J Schellenberg (Sweden, UK, Switzerland, Tanzania)

702  Predicting common maternal postpartum complications: leveraging health administrative data and machine learning  
KS Betts, S Kiselý, R Alati (Australia)

**Fertility and assisted reproduction**

711  Supraphysiological estradiol level in ovarian stimulation cycles affects the birthweight of neonates conceived through subsequent frozen-thawed cycles: a retrospective study  
J Cai, L Liu, Y Xu, Z Liu, X Jiang, P Li, A Sha, J Ren (China)

**General obstetrics**

719  Association of chorioamnionitis and its duration with adverse maternal outcomes by mode of delivery: a cohort study  
KK Venkatesh, AV Glover, CJ Vladutiu, DM Stamilio (USA)

729  Nifedipine alone or combined with sildenafil citrate for management of threatened preterm labour: a randomised trial  
MA Maher, TM Sayyed, SW El-khadry (Egypt, Saudi Arabia)

**Gynaecological oncology**

737  Maternal anaemia and maternal, fetal, and neonatal outcomes in a prospective cohort study in India and Pakistan  
S Parks, MK Hoffman, SS Goudar, A Patel, S Saleem, SA Ali, RL Goldenberg, PL Hibberd, J Moore, D Wallace, EM McClure, RJ Derman (USA, India, Pakistan)

745  Availability of less invasive prenatal, perinatal and paediatric autopsies will improve uptake rates: a mixed-methods study with bereaved parents  
C Lewis, M Riddington, M Hill, OJ Arthurs, JC Hutchinson, LS Chitty, C Bevan, J Fisher, J Ward, NJ Sebire (UK)

755  Incidence, causes and correlates of maternal near-miss morbidity: a multi-centre cross-sectional study  
SA Oppong, A Bakari, AJ Bell, Y Bockarie, JA Adu, CA Turpin, SA Obad, RM Adanu, CA Moyer (Ghana, USA)

763  The influence of the introduction of national guidelines on preterm birth prevention practice: UK experience  
A Care, L Ingleby, Z Alfirevic, A Sharp (UK)

784  **Attitude towards and factors affecting uptake of population-based BRCA testing in the Ashkenazi Jewish population: a cohort study**  

---

* MC: Mini commentary  
* JC: Journal Club
**Gynaecological surgery**

795  Route of hysterectomy: a retrospective, cohort study in English NHS Hospitals from 2011 to 2017  
K Madhvani, T Curnow, T Carpenter (UK)  
* MC: Increasing use of laparoscopic hysterectomy: we need to talk about outcomes  
J van der Meulen (UK)

804  Immediate versus delayed removal of urinary catheter after laparoscopic hysterectomy: a randomised controlled trial  
EM Sandberg, ARH Twijnstra, CA van Meir, HS Kok, N van Geloven, K Gludovac, W Kolkman, HTC Nagel, LCF Haans, K Kapiteijn, FW Jansen (the Netherlands)

**BJOG Exchange**

814  Re: Uterine caesarean closure techniques affect ultrasound findings and long-term maternal outcomes: a systematic review and meta-analysis  
SL Sholapurkar (UK)

815  Authors’ reply re: Uterine caesarean closure techniques affect ultrasound findings and long-term maternal outcomes: a systematic review and meta-analysis  
SI Stegwee, CJM de Groot, CB Lambalk, JAF Huirne (the Netherlands)

**Blair Bell Abstracts**

c125  Blair Bell Research Society: Annual Academic Meeting Abstracts
INTRODUCTION
A manuscript is considered on the understanding that it has been submitted exclusively to BJOG and the data presented have not been published elsewhere. The requirements for authorship and for preparation of manuscripts submitted to BJOG are in accordance with the Uniform Requirements for Manuscripts Submitted to Biomedical Journals.1 The standards for the editorial process are in accordance with the Committee on Publication Ethics guidelines in A Code of Conduct for Editors of Biomedical Journals.2

SUBMISSION OF MANUSCRIPTS
Submissions to BJOG must be made online through ScholarOne by logging in on the homepage. Paper manuscripts are not accepted. You must register on the site, ensuring that you enter a reliable email address for all correspondence concerning your submission. You will receive a login and password, which provide access to your Home Page. Full instructions for submitting a manuscript are available on the website. You should take the time to read these instructions prior to submitting a manuscript.

If your paper is accepted, the author identified as the formal corresponding author for the paper will receive an email prompting them to login into Author Services; where via the Wiley Author Licensing Service (WALS) they will be able to complete the license agreement on behalf of all authors on the paper. Where Online Open is required please also complete the online payment form.

LAYOUT OF MANUSCRIPTS
The appropriate layout for manuscripts is described in the online instructions. All online submissions must include a cover letter to the Editor-in-Chief and a Title Page with author details at the beginning of the manuscript. Details of abstract requirements are found in the instructions for submitting a manuscript. A review of a current issue of BJOG will assist you in understanding the requirements.

TYPES OF ARTICLES
BJOG publishes Original Research Articles, Systematic Reviews, Randomised Controlled Trials, Reviews, Surgical Techniques, Case Reports, Commentaries and Letters. Please note that ethical approval, patient consent, CONSORT diagram and checklist, QUOROM statement checklist and protocol summary will be required as appropriate to your submission.

ACCEPTED ARTICLES
Accepted Articles have been accepted for publication and undergone full peer review but have not been through the copyediting, typesetting, pagination and proofreading process. Accepted Articles are published online a few days after final acceptance, appear in PDF format only, are given a Digital Object Identifier (DOI), which allows them to be cited and tracked, and are indexed by PubMed.

PROOFS
Proofs of accepted manuscripts will be sent via our e-proofing site to the indicated Corresponding Author. Please ensure that the email address on the article Title Page is current.

EARLY VIEW
Early View articles are complete full-text articles published online in advance of their publication in a printed issue. Articles are therefore available as soon as they are ready, rather than having to wait for the next scheduled print issue. Early View articles are complete and final. They have been fully reviewed, revised and edited for publication, and the authors’ final corrections have been incorporated. Because they are in final form, no changes can be made after online publication. They are given a Digital Object Identifier (DOI), which allows the article to be cited and tracked. After publication, the DOI remains valid and can continue to be used to cite and access the article.

Disclaimer: The Publisher, the Royal College of Obstetricians and Gynaecologists (RCOG) and Editors cannot be held responsible for errors or any consequences arising from the use of information contained in this journal; the views and opinions expressed do not necessarily reflect those of the College or Editors, neither does the publication of advertisements constitute any endorsement by the College or Editors of the products advertised.
